

# PARTNERS in EDUCATION

## PARTNER SPOTLIGHT

The Arlington Community Federal Credit Union has been a partner with Arlington Public Schools for over fifteen years. They currently have five in-school branches of the credit union for the purpose of teaching students the basic principles of the financial services industry and the operation of a small business, all while having fun. Both students and staff are able to deposit money during in-school branch hours on specific days.

*“We cannot thank ACFCU staff enough for introducing our students to the concept of financial literacy. Beyond their work at the in-school branch, ACFCU employees have participated in our African American Read-in, Family Math Night and Nauck Civic Pride Day. We are most appreciative for them making a difference at Drew Model School.”*  
-Gregory Taylor, Minority Achievement Coordinator at Drew

## SAVE THE DATE!

### Partnership and Volunteer Celebration

Arlington Career Center, Wednesday, May 20, 2015 @ 5 p.m.

Check out our new video series that highlights a few of the businesses and community organizations that provide partnerships with our schools and programs. Watch online at [www.apsva.us/partnersinaction](http://www.apsva.us/partnersinaction).

## Are you interested in partnering with Arlington Public Schools?

Our Partners in Education program brings organizations into the schools to work directly with students, teachers, and administrators on projects targeted at improving student achievement. APS has three types of partners:

- **Resource Partners** provide space, gift certificates, incentive prizes, financial or in-kind donations.
- **Service Partners** provide mentors, tutors, guest speakers, workshops, internship opportunities and/or job shadowing experiences.
- **Strategic Partners** sign a partnership agreement that supports both the APS Strategic Plan and the partner's organizational goals.
