

REEP ESL Curriculum for Adults

MIND MAPPING

Levels: ALL

Suggested Instructional Steps: Begin brainstorming with one question depicted at the center of a diagram. Learners' responses to central question and more detailed examples are added to the diagram as branches emerging from the center. To finish, a count is taken of those who agree with each response, and the tally is written on the branch. Instructional implications are discussed as a group.

EXAMPLE 1: TOPICAL

EXAMPLE 2: SKILL
