

## APS Budget Forum for Hispanic Community

### Carlin Springs Elementary School

December 16, 2015

#### **Priorities:**

- Do not increase class size
  - Additional students in a class results in:
    1. Additional pressure on teachers
    2. Less teacher attention to students
    3. Difficult to manage larger classes
    4. Students can fall behind
- Bilingual Resource Assistants are important in schools. These positions help students that need it. Need to better define the roles/responsibility of this position.

#### **Reductions:**

- Paper/printing
- Look at increasing fees (building use)
- Ask county for additional funds

#### **Communication:**

- Paper/flyers. (Not everyone has access to a computer.)
- Meetings—provide information at leadership group meetings
- Keep information clear and concise so all can understand
- Provide cards with easy and direct questions for community to fill out

Other notes:

Will get back to constituents for additional information on budget.
