Experience the Kaiser Permanente difference

The experience ...	Without Kaiser Permanente	With Kaiser Permanente*
 <p>Choosing your doctor</p>	All you know is that your doctor accepts your insurance.	You can search our doctor profiles on kp.org and choose the one who's right for you. You can even change your doctor anytime.
 <p>Getting care in your language</p>	Some health plans have few multilingual doctors.	We have multilingual doctors and staff, and we offer interpretation services by phone in 140+ languages.
 <p>Choosing how you get care</p>	Even for minor concerns, you usually make an appointment, drive to the doctor's office, and sit in the waiting room.	For minor concerns, you can request a phone appointment or email your doctor's office with routine questions.
 <p>Calling for advice</p>	When your child has a late-night fever, there's often no medical advice available.	Specially trained Kaiser Permanente nurses can offer medical advice by phone, 24/7.
 <p>Making an appointment</p>	Calling and waiting to schedule an appointment can take forever.	You can schedule routine appointments from your computer or mobile device – anytime, anywhere.
 <p>Seeing your doctor</p>	Your doctor may need to flip through your files, hunting for details and looking for answers you've already given.	Your doctor has your medical history and prescriptions right at his or her fingertips through your electronic health record.
 <p>Remembering what your doctor said</p>	Take lots of notes during your visit or trust your memory later.	You can view your past visit summaries and most lab test results online, whenever you want.

*These features are available when you get care at Kaiser Permanente facilities.

Your health. Your way.

Kaiser Permanente makes it easier to stay in charge of your health. It's simple to make smart choices when you have great doctors and convenient facilities.

Choose and change your doctor

At Kaiser Permanente, we know how important it is to find a doctor who matches your specific needs. Even if you don't need to see your doctor right away, having a doctor you connect with is an important part of taking care of your health.

To help you make the decision that's right for you, you can browse our online doctor profiles, where you can find information related to education, credentials, and specialties, as well as our doctors' interest areas and if they are accepting new patients.

You can also change your doctor at any time, for any reason.

- You'll have many locations to choose from, and most of them offer multiple services under one roof.
- You can see your doctor, get a lab test or an X-ray, and pick up your medications – all without leaving the building.

Locations near you
