

<p>(Feedback from Apr 14-18) At the Kenmore M.S. site • Kenmore remains as a Middle School • Building added for a 1,300 seat Neighborhood High School* *A 1,300 seat neighborhood high school may not be able to offer all of the activities, programs, and courses that are presently offered at Wakefield, Washington-Lee, and Yorktown.</p>		
Strengths	Challenges	Other thoughts
Possibility for future expansion to meet the growing		
You have the land.	Carlin Springs Road will look like I-66 gridlock.	Terrible idea. Go back north APS! Buy the Buck property...you have land there also.
	I live in Glen Carlyn. With 3 schools on Carlin Springs Road, we have enough challenges with traffic, traffic traffic! Locating a 4th school on the same property as Kenmore and Carlin Springs Elementary is insane. All in our neighborhood are opposed to this, it further detracts from the appeal - peacefulness, quiet, of our neighborhood.	
	not sufficient space for full sports programs; limited traffic patterns	Too many schools at one site (elementary, middle & High
None	adding traffic to an already over-stressed S. Carlin Springs Road is unacceptable	See above about traffic
	3 schools close together already-no room for a fourth	Consider Crystal City
Flexibility to expand by joining new HS with Kenmore	Traffic. Traffic. Traffic. It does not seem like a good idea to build another neighborhood HS right on the western boundary of the county.	I would be happy to send a child to a non-comprehensive HS, but to maintain equality across the county it seems like students would have to be given the option to transfer to a comprehensive HS for sports, etc. That could get very complicated and could make enrollment uncertain and variable.
	Traffic in area, Losing field space for sports	

<p>(Feedback from Apr 14-18) At the Kenmore M.S. site • Kenmore remains as a Middle School • Building added for a 1,300 seat Neighborhood High School* *A 1,300 seat neighborhood high school may not be able to offer all of the activities, programs, and courses that are presently offered at Wakefield, Washington-Lee, and Yorktown.</p>		
Strengths	Challenges	Other thoughts
<p>Kenmore has enjoyed a perfect place when it was at the old site or now at the fairly new one. Don't disrupt it!</p>	<p>A high school on the Kenmore site would create devastating chaos for the Carlin Springs area - students' cars glutting the parking lot along with teachers and everybody else - dreadful ND Dngerous traffic problems - more students afoot on the streets - horrible decision!</p>	<p>Don't make life more difficult for the Glencarlin community!</p>
<p>Would be nice for these students to already be familiar with the campus/make-up/drop-off routine already. Almost like making another 6-12 option.</p>		<p>I think adding a new neighborhood HS either here or at the Career Center Site is preferable to just making an existing school even bigger.</p>
<p>good to have another neighborhood school ;hate busing all of these kids around</p>	<p>wouldn't have the same opportunities as kids at the other high schools - not cool</p>	
<p>Best option so far.</p>	<p>Will need to be expanded to regular high school over time.</p>	<p>This would seem to be the most viable way toward a fourth neighborhood high school, which is what is needed.</p>
	<p>This is a terrible idea! Traffic along Carlyn Springs is already awful every day. Adding a fourth school to this strip is completely untenable as well as unsafe for students.</p>	<p>Middle school student walkers already make dangerous pedestrian decisions.</p>
<p>None</p>	<p>Traffic on Carlin Springs is already a nightmare, this would make it even worse</p>	
<p>Location is more central overall for the county and could pull from both North & South Arlington</p>	<p>not ideal to have MS and HS students so close in proximity</p>	

<p>(Feedback from Apr 14-18) At the Kenmore M.S. site • Kenmore remains as a Middle School • Building added for a 1,300 seat Neighborhood High School* *A 1,300 seat neighborhood high school may not be able to offer all of the activities, programs, and courses that are presently offered at Wakefield, Washington-Lee, and Yorktown.</p>		
Strengths	Challenges	Other thoughts
	<p>Traffic impact will be catastrophic with 2 schools already on the site and Campbell a couple blocks away. The loss of field space would also be disastrous for already limited resources for after school sports as these fields currently are packed every evening. The traffic on Carlin Springs is terrible as is .</p>	
<p>This is the best option. Build a 1300 seat high school now, co-located with the middle school. Eventually build a new middle school and the Kenmore campus can become a 4th comprehensive high school of a size comparable to the other three.</p>		<p>This is the only option that allows for a desperately needed 4th high school. \$150 should be enough to build something that has similar amenities and offerings to the other schools. This campus is as large as the Wakefield campus; making it a high school makes the most sense</p>
		<p>W&L high school is too large. Need to build another option. Kenmore site is probably a good option.</p>
	<p>If located near Kenmore, I think this kind of neighborhood school would remain the least desirable high school for many, many years to come. Also, the area near Kenmore already has traffic congestion on Carlin Springs. There are no other North-South streets that can relieve the congestion.</p>	<p>This is by far the worst proposed option.</p>

<p>(Feedback from Apr 14-18) At the Kenmore M.S. site • Kenmore remains as a Middle School • Building added for a 1,300 seat Neighborhood High School* *A 1,300 seat neighborhood high school may not be able to offer all of the activities, programs, and courses that are presently offered at Wakefield, Washington-Lee, and Yorktown.</p>		
Strengths	Challenges	Other thoughts
<p>What APS needs is to move the middle school and place a 1900 seat comprehensive high school on this property.</p>	<p>Is it fair to have a neighborhood school where the students won't have access to "all of the activities, programs, and courses that are presently offered at Wakefield, Washington-Lee, and Yorktown"? Unlike county "choice/charter" schools, these students have not selected to give up the comprehensive high school experience. Again, this will negatively impact these students.</p>	
	<p>On the edge of the county, traffic is terrible in the mornings with three other schools in a half-mile radius, would lose precious field space</p>	
<p>Very few. Backing up to route 50 could disrupt less homes</p>	<p>traffic impact. Cost for new fields and larger structure could be cost prohibitive. More impact on south arlington</p>	<p>2nd option behind WL option</p>
<p>I do NOT support a high school in that area. It would cause MAJOR traffic and commuter problems</p>	<p>As above there is not positive side to having a high school in that area. Carlin Springs Road can barely accommodate the traffic now</p>	
<p>Keep the MS as is</p>	<p>benefits of all other HSs not available at new school/has to be choice school</p>	<p>equity issues if you make this a neighborhood school and there will be too much traffic</p>
<p>Good location</p>		

<p>(Feedback from Apr 14-18) At the Kenmore M.S. site • Kenmore remains as a Middle School • Building added for a 1,300 seat Neighborhood High School* *A 1,300 seat neighborhood high school may not be able to offer all of the activities, programs, and courses that are presently offered at Wakefield, Washington-Lee, and Yorktown.</p>		
Strengths	Challenges	Other thoughts
		If options are limited kids will feel they are going to a second rate school. A small neighborhood school is a bad idea unless it offers something unique that no other high
None	All neighborhood high schools should offer the same activities, courses, etc... You run the risk of creating a second tier school	
	This isn't going to give the county or this community what it needs.	Why not put the full amount of seats we need in this space and put a middle school at the VHC Carlin Springs option.
None	The surrounding neighborhoods will be poorly impacted. Carlin Springs RD is already way too crowded with cars in the morning as well as kids trying to walk to schools (an elementary school is also there). The Glen Carlyn community would suffer. Not a good location for a HS.	
	It is too crowded with Kenmore and Carlin Springs elementary already there. Building a new building very expensive	Try to allow for dual use buildings. 9th grade academy is a better idea, especially if it can be scaled for a 6th grade academy, etc. to meet needs
Existing APS property that can accommodate a new HS; does not overcrowd any of existing HSs.		This is the best option - please build a new 4th HS at Kenmore
	Already so much traffic in that area	

<p>(Feedback from Apr 14-18) At the Kenmore M.S. site • Kenmore remains as a Middle School • Building added for a 1,300 seat Neighborhood High School* *A 1,300 seat neighborhood high school may not be able to offer all of the activities, programs, and courses that are presently offered at Wakefield, Washington-Lee, and Yorktown.</p>		
Strengths	Challenges	Other thoughts
I do NOT see any strengths.	<p>1) May not be able to offer all of the programs, activities, and courses that are currently offered at the three existing Arlington high schools. 2) Do you want high school students on a campus adjacent to an elementary school campus? 3) Danger to students due to the traffic on Carlin Springs Road.</p>	Adverse impact on small area that ALREADY HAS 3 SCHOOLS. The area cannot handle any major traffic.
build a 1300 neighborhood high school		maybe make this an option school whereby parents would know they won't get all of the activities, programs, etc. at the other high schools
	<p>1) A middle school and a high school sharing space and adjacent to an elementary school site. 2) May not be able to offer all of the programs , activities, and courses as the other Arlington high schools -- an equity concern. 3). Too much traffic for the students and the neighborhood.</p>	There are already 3 schools in a very small geographic area. Please do NOT add another one. Traffic is already very bad.
New school in central Arlington to serve students who would come from local areas.	Need to build. Overlap with MS?	
None	More traffic on Carlin Springs, might take close neighborhoods from W-L and IB program	There should not be a high school created that, going in, we know will have less to offer than the other schools.

<p>(Feedback from Apr 14-18) At the Kenmore M.S. site • Kenmore remains as a Middle School • Building added for a 1,300 seat Neighborhood High School* *A 1,300 seat neighborhood high school may not be able to offer all of the activities, programs, and courses that are presently offered at Wakefield, Washington-Lee, and Yorktown.</p>		
Strengths	Challenges	Other thoughts
<p>Provides a smaller school that could draw from existing high schools, would not create a massive burst of traffic all at once, would allow students to grow up together, would have adequate field space</p>	<p>May not offer activities, programs, and courses</p>	<p>If there were a place to move Kenmore (possibly co-locate with Arlington County facilities -- community center?), new HS could expand as needed for eventual peak APS</p>
	<p>the traffic at Carlin Springs and Route 50 backs up multiple times a day and adding seats to this site would make even more traffic; also it doesn't make sense to build a high school on a spot that you already know will not be able to offer all of the amenities at the other high schools, that is a very unfair decision to give to those in the immediate community; why would that be the best feasible solution when a middle school would be displaced and another high school is within two miles</p>	
<p>One of the few larger areas of land that can be developed for a new school</p>	<p>Traffic patterns surrounding Kenmore are already bad and will get worse unless new traffic patterns or streets are created</p>	
<p>my high school had 1300 students and seemed comprehensive enough</p>	<p>entry/exit from Carlin Springs road is already problematic. This would make things worse.</p>	<p>Making this a magnet school, perhaps for the arts, would be attractive.</p>
<p>Best available option; real plan should be full HS here and move the MS.</p>	<p>Carlin springs coexisting with HS program; traffic</p>	<p>This is the only realistic space for a full HS at this point. Until APS committed to the new ES at TJ that could have been a good site...</p>

<p>(Feedback from Apr 14-18) At the Kenmore M.S. site • Kenmore remains as a Middle School</p> <ul style="list-style-type: none"> • Building added for a 1,300 seat Neighborhood High School* <p>*A 1,300 seat neighborhood high school may not be able to offer all of the activities, programs, and courses that are presently offered at Wakefield, Washington-Lee, and Yorktown.</p>		
Strengths	Challenges	Other thoughts
few or none	severe traffic on Carlyn Springs Road, safety issues for students crossing Carlyn Springs Road	Very bad idea--the area cannot support that many more students
Kenmore site has the most room to accommodate a new high school without crowding the middle school or the neighborhood.	None	New school should be built at Kenmore or Washington-Lee.
short commutes to school = more time for everything else	kids are basically in competition with one another when applying to college. it would be terrible for a child to not have an opportunity to develop an interest or skill because it isn't offered at their neighborhood school.	
Lots of space	Not much parking	a high school in a different part of the county would be good
Space available	Mix middle and high school students on same campus	Would allow for additional expansion if middle school can be relocated
Could become 4th comprehensive school	Western edge of county	Has space & potential to be a real HS
Have the land/space already. Alleviate enrollment pressure on current High Schools	Could involve redistricting- always controversial. What is the appeal if its more limited in offerings??	

<p>(Feedback from Apr 14-18) At the Kenmore M.S. site • Kenmore remains as a Middle School • Building added for a 1,300 seat Neighborhood High School* *A 1,300 seat neighborhood high school may not be able to offer all of the activities, programs, and courses that are presently offered at Wakefield, Washington-Lee, and Yorktown.</p>		
Strengths	Challenges	Other thoughts
None.	<p>Safety and traffic are two major concerns. I have lived within a mile of Kenmore Middle School for the last 10 years and know this area well. I also grew up several block from a high school (Lower Merlin in PA). You cannot put high school students in such close proximity to an Elementary school. I also anticipate students being hit in Carlin Springs road, as students will park in neighboring Glencarlyn and crossing to access the 7-11. It would be foolish to put 1,300 student here with traffic.</p>	<p>Without a comprehensive traffic surgery, this would be a huge mistake. You will have many accidents on Carlin Springs and will make it impossible to travel up and down Carlin Springs road. This will pose serious issues for ambulances and completely change the Arlington bus times. This will also infringe on the neighboring Glencarlyn community, which is the oldest in Arlington and should be preserved as is. Glencarlyn, with limited sidewalks and a preschool, is not a place that can</p>
Building a new high school	Not giving the new high school a focus as a countywide option school	A new countywide option school focusing on something like STEM or world languages would be better than a new neighborhood
Land is available	We do not need another sub-par high-school without activities, program and courses	

<p>(Feedback from Apr 14-18) At the Kenmore M.S. site • Kenmore remains as a Middle School • Building added for a 1,300 seat Neighborhood High School* *A 1,300 seat neighborhood high school may not be able to offer all of the activities, programs, and courses that are presently offered at Wakefield, Washington-Lee, and Yorktown.</p>		
Strengths	Challenges	Other thoughts
none	It would completely overwhelm traffic on Carlin Springs Road and Arlington Blvd., 4 schools in less than a mile would far too much concentration. Elementary schools and high schools don't belong together. There would be a huge loss in open space. Public athletic space would be lost. A great deal of neighborhood parking would be lost.	
A new HS in a central location. 1300 is a good size and students could get more individualized attention.		Would this be option or required? Because smaller, should allow transfers to larger HS for student very interested in sports or particular activity not offered.
not enough added seats	too many kids coming through the pipeline	design multi-purpose facilities.
	I don't think HS and MS students should be in the same space/facility b/c 6th graders are too small/young to be around 12th graders.	Why CAN'T APS ensure that this new, smaller 1300 seat HS would have all the same programs, activities and courses that the other APS HSs have when lots of smaller districts around the country are able to offer a diverse body of activities with smaller student bodies?
	TRAFFIC!!! TRAFFIC ALONG CARLIN SPRINGS IS TERRIBLE ALREADY!!!	
		Boundaries need to consider diversity balance

<p>(Feedback from Apr 14-18) At the Kenmore M.S. site • Kenmore remains as a Middle School • Building added for a 1,300 seat Neighborhood High School* *A 1,300 seat neighborhood high school may not be able to offer all of the activities, programs, and courses that are presently offered at Wakefield, Washington-Lee, and Yorktown.</p>		
Strengths	Challenges	Other thoughts
New dedicated high school in an area with land to build accordingly.	This option, regardless if built at Kenmore or another location, should offer the same education offerings as the sister schools (i.e. Wakefield, Washington-Lee and Yorktown). With a child at ASFS, I'd like to see a STEM option.	
Like adding additional neighborhood school;	sports	
		I don't think Arlington need another school – in addition to the one at the career center and the new technology focused school – that is so specialized. With our growing population, it seems smarter to use the funds to begin construction of a full-sized new high school with all necessary programs/amenities.
	Wrong location; cannot handle traffic	
Best option! Enables future fourth comprehensive high school. Adds a fourth school in the South. Promotes neighborhood schools.	Traffic - but that is a problem everywhere!	
Many parents are seeking a smaller school environment for their children.	Lack of amenities. Transportation complications.	What is the purpose of this school? Does it have theme such as Self Directed Learning (HBW) or STEM (Arl. Tech)?
Centrally located within the county; potential resources for middle school too	Keeping middle school students safe; maintaining space/delineation so MS students don't feel overwhelmed	
A smaller high school might be a good thing		Another neighborhood high school requires fewer kids to be bussed
space	What would make this school be attractive to students?	How would not offering all traditional activities effect a student's college applications?

<p>(Feedback from Apr 14-18) At the Kenmore M.S. site • Kenmore remains as a Middle School • Building added for a 1,300 seat Neighborhood High School* *A 1,300 seat neighborhood high school may not be able to offer all of the activities, programs, and courses that are presently offered at Wakefield, Washington-Lee, and Yorktown.</p>		
Strengths	Challenges	Other thoughts
Like bc would be distinctly separate HS from MS and not just adding onto a HS		
Most flexible option. Pathway to 4th .comprehensive High school. One of largest APS land parcels! Creates more high school seats in the West/South. Could be a second highly diverse school like WL. Lots of walkers = fewer buses. Comprehensive schools build community!	Traffic, but that can be overcome and having elementary, middle and high school students on same road spreads traffic out during morning and afternoon with different start/end times.	We don't need a pool at every high school!
Much bigger campus and open space to take advantage of, would create a new 'neighborhood' draw.	Need to create more pathways off of 50 or Carlin Springs to assist in traffic flow.	This would create a continuum for students and families, similar to Discovery/Williamsburg.
This option creates an actual school with space for fields and extracurricular needs. It can also later be converted to a larger school once the need arises in a few more years.	Traffic along Carlin Springs road. This can be addressed, however, by better management along the road. Lights need appropriate sequencing and limitations on left turns from on all but the roads with lights would alleviate most of the current traffic and any additional from the high school.	Acquiring the Virginia Hospital plot down the street in the swallowed allow for a middle school to replace Kenmore to become structuring that site, allowing the new high school room to grow to at a later date to a size matching the other 3 comprehensive high schools in the county.
NONE!	EVERYTHING	Never, never, never. Terrible idea.
	Traffic in the neighborhood is already unbearable, this would make it worse!	3 schools on top of each other, awful idea

<p>(Feedback from Apr 14-18) At the Kenmore M.S. site • Kenmore remains as a Middle School • Building added for a 1,300 seat Neighborhood High School* *A 1,300 seat neighborhood high school may not be able to offer all of the activities, programs, and courses that are presently offered at Wakefield, Washington-Lee, and Yorktown.</p>		
Strengths	Challenges	Other thoughts
<p>Kenmore was designed for middle school and suits the current program</p>	<p>Carlin Springs Road is congested and getting in and out of the school site and neighborhood is already a challenge. Does not seem to be viable alternate way on and off that site to alleviate traffic. Determining boundaries to draw from is a concern to create a diverse school population for high school.</p>	<p>Having students K-12 on the same property is concerning for social reasons. Managing arrival and dismissal is a concern. Monitoring students safety in the neighborhood and parks could be a problem.</p>
<p>A middle school and a high school on the same site---a model used all over the country with success.</p>	<p>What is there not enough room for if you build two schools at this site? Too few fields?? Cities have figured out how to do gym classes and sports without fields for decades. Add a floor if you need another gym or theater.</p>	<p>Please be explicit in "not able to offer....": do you mean: no room for athletic fields (so no sports) or no room for auditorium (so no drama/music) or what?? The tradeoffs are not clear.</p>
<p>Great idea!</p>		
<p>None.</p>	<p>Too close to elementary and middle school; loss of open space for those schools; too much traffic; three schools in immediate five blocks</p>	
	<p>too much traffic on Carlyn Springs Road</p>	
<p>Near rt 50</p>	<p>Traffic on Carlin Springs rd. Clustering of 4 schools in 1/4 mile area, no option for sports</p>	<p>Vandalism and crime already happening from Kenmore middle school students cutting through Glencarlyn</p>
<p>Smaller high school which is a positive! Kenmore stays a M.S.</p>		
	<p>All the high schools should have similar resources.</p>	<p>A under-resourced neighborhood school in a Hispanic enclave is not going the right</p>

<p>(Feedback from Apr 14-18) At the Kenmore M.S. site • Kenmore remains as a Middle School • Building added for a 1,300 seat Neighborhood High School* *A 1,300 seat neighborhood high school may not be able to offer all of the activities, programs, and courses that are presently offered at Wakefield, Washington-Lee, and Yorktown.</p>		
<p>Strengths</p>	<p>Challenges</p>	<p>Other thoughts</p>
<p>Space is available</p>	<p>Traffic w school density would be bad. No space for stadium, etc</p>	<p>Too many schools too close together.</p>
<p>There is far more room here for additional kids.</p>	<p>We SHOULD Be building a 4th comprehensive high school here and looking to relocate Kenmore Middle.</p>	<p>We need a 4th comprehensive high school. Please stop ignoring the demand for this.</p>
<p>Separate facility for students who need a smaller learning environment.</p>	<p>Way too close to middle school. High school students really do negatively affect those middle schoolers who are highly at-risk for skipping and drug/alcohol use. The traffic situation would be horrible. I worked at Kenmore and also had a child at Kenmore so I speak from personal experience.</p>	
<p>HB Woodlawn type HS. If the county wants smaller class sizes, this is a good place to start.</p>	<p>If the county wants to create another HB Woodlawn type HS, then how to convince families to attend if our current South Arlington HS is not at 100% capacity.</p>	<p>Why not take this opportunity to branch away from our commitment to Thomas Jefferson High School for Science & Technology and position the new school as our commitment to advanced High School Education. Arlington already has neighborhoods that believe we are second to none. Arlington High School graduates are marginalized by our own State Universities when it comes to acceptance, but TJ graduates seem to get first choice and they</p>
		<p>I'm certainly in favor of more, smaller schools. So a new HS @ Kenmore works for me. (Sorry to loose the fields around Kenmore</p>

<p>(Feedback from Apr 14-18) At the Kenmore M.S. site • Kenmore remains as a Middle School • Building added for a 1,300 seat Neighborhood High School* *A 1,300 seat neighborhood high school may not be able to offer all of the activities, programs, and courses that are presently offered at Wakefield, Washington-Lee, and Yorktown.</p>		
Strengths	Challenges	Other thoughts
A co-located M.S. and H.S. might create some efficiencies for space	I don't want my tax dollars funding a broader high school experience for some kids but not the unlucky few who are zoned for a school without the same programs - that's not fair	If APS creates a new high school without the same programs as others, then it should be an options program that students choose freely with full knowledge that programs will be different.
	parking, high school students mixing with middle school	
No real strengths here.	This option proposes to zone a small number of kids to a high school that would NOT offer them a full high school experience. This may be a fine option as a choice school, but not as a default (or no other option) school for such a large number of kids. Tax dollars shouldn't go to pay for a full high school experience for only most kids -- absent the choice for a different experience.	
It serves the area with enrollment growth. I think most parent are in favor of a comprehensive high school. It does not create on huge high school and two much smaller ones.	Traffic	I believe this is the best option for the county.
Such a central location would be great for a high school.	3 schools (elementary, middle, and high) in a VERY confined space. Traffic will be horrendous.	APS must work with the county board to re-design some streets and street lights for better entry/exit.
	accessibility, including parking, destruction of existing green space for recreation	

<p>(Feedback from Apr 14-18) At the Kenmore M.S. site • Kenmore remains as a Middle School • Building added for a 1,300 seat Neighborhood High School* *A 1,300 seat neighborhood high school may not be able to offer all of the activities, programs, and courses that are presently offered at Wakefield, Washington-Lee, and Yorktown.</p>		
Strengths	Challenges	Other thoughts
None	Traffic	As a neighbor in Glencarlyn, this option sounds like a traffic nightmare for us. Please don't put the high school on the Kenmore site!
Reduces overcrowding at Washington-Lee	This is not a comprehensive high school and students will not have all of the opportunities available at the three comprehensive high schools	This location should be used to create a fourth comprehensive high school, with the middle school possibly being relocated elsewhere.
This is necessary to accommodate growth.	Redistricting current high schools.	
School would be located between Wakefield and the two north Arlington high schools	Area already has two elementary and one middle school within walking distance of each other. High school would be located between an elementary school and middle school. Bulk of students in high school would need transportation to reach school over roads that are a all ready congested during work hours. Limited parking in the area.	Property for school borders on Fairfax County/Falls Church. No advantage to have elementary, middle school and high school located adjacent to each other.
May pull more affluent students into the South Arlington school environment	Traffic is already terrible there. Not easy to walk to for kids who have to cross Rt 50.	
This is the best option. We need to build a new school and Kenmore is the best location for it.		
Relieves pressure of huge high schools, including congestion and safety concerns	All challenges associated with establishing a new school	Given county's growth needs and high quality education this seems to be the only good
None	Not an ideal HS experience for kids. Why do some kids get the full HS experience with activities on our tax dollars and not others.	

<p>(Feedback from Apr 14-18) At the Kenmore M.S. site • Kenmore remains as a Middle School • Building added for a 1,300 seat Neighborhood High School* *A 1,300 seat neighborhood high school may not be able to offer all of the activities, programs, and courses that are presently offered at Wakefield, Washington-Lee, and Yorktown.</p>		
Strengths	Challenges	Other thoughts
		what wouldn't be able to be provided to a "neighborhood" high school specifically?
This is the best option--best utilization of significant space		Need to look at options of increasing by more than 1300 students in anticipation of continued growth. Unclear why more seats can't be gained in this location
	Terrible idea. Creates a second-class school for second-class South Arlington. Who wants a school lacking in educational programs and services? Mixes HS, MS and Elementary school students.	Besides creating a lousy school, it also creates a traffic and scheduling nightmare for this corner of Arlington along Carlin Springs Road.
small environment	Lack of full comprehensive school amenities.	I can't understand why we can't come up with an option that allows FULL opportunities at a hs? Would students be districted to participate in sports at their "home" school? What about clubs and other activities? How can you support having a school that is less than what we already have? It would be another "program" like H-B which may not be a good fit for many students in the county.
YES! This is the best option.	Providing activities, programs, and courses that the other high schools have either with online courses, busing to other high schools, etc.	
plenty of space	location	I think this option makes the most sense

<p>(Feedback from Apr 14-18) At the Kenmore M.S. site • Kenmore remains as a Middle School • Building added for a 1,300 seat Neighborhood High School* *A 1,300 seat neighborhood high school may not be able to offer all of the activities, programs, and courses that are presently offered at Wakefield, Washington-Lee, and Yorktown.</p>		
Strengths	Challenges	Other thoughts
You get 1300 seats	Carlyn Springs Road becomes more of a nightmare. GLencarlyn becomes a parking lot for students, faculty & visitors. You eliminate the ball fields & tennis courts. You put a high school next to a grammar school. The flow of traffic onto and off of Rte. 50 at school opening and closing times will tie up traffic in both directions, as well as both directions on Carlyn Springs Road, drastically.	Expand the existing high schools.
	inequitable solution if HS would not be able to offer same activities, programs, courses etc. as the other high schools	
	adding high school to that spot would add too many students and not good to mix middle and high school wiht so many students	Carlin Springs is already heavily travelled road and not very wide. adding 1300 high school students many of whom drive does not seem like a good idea
I like this option as this provides an option to convert Kenmore into a "comprehensive" HS in the future.	I am concerned about the access/traffic in that area as well as the geographic balance for locations of high schools in Arlington.	
size	community	probably best saved for future larger project

<p>(Feedback from Apr 14-18) At the Kenmore M.S. site • Kenmore remains as a Middle School • Building added for a 1,300 seat Neighborhood High School* *A 1,300 seat neighborhood high school may not be able to offer all of the activities, programs, and courses that are presently offered at Wakefield, Washington-Lee, and Yorktown.</p>		
Strengths	Challenges	Other thoughts
<p>There is a lot of space at this site. Fairly centrally located.</p>	<p>Not fair to have this be a 'neighborhood' if it isn't going to offer all courses/programs</p>	<p>If you want to put it here - make it an option/choice school OR as I mentioned earlier, have a countywide lottery. OR, why not turn this into a full sized comprehensive high school? Seems like plenty of room. The county would have to help with traffic etc and KMS would have to be relocated.</p>
<p>Centrally located, could draw from north and south arlington</p>		
<p>best option, good location, seems to have to space and would serve as a real neighborhood school</p>		
<p>None</p>	<p>Huge. Huge. Traffic issues on an already incredibly trafficky Carlinhos Springs Rd, the middle school and elementary school students there do not need driving high schoolers all over the area, not to mention the noise and foot traffic it will create for the surrounding neighborhood.</p>	<p>PLEASE DO NOT put a high school at the Kenmore site!!!</p>
<p>None</p>	<p>Even more traffic on carlin springs road, students, parking issues in glencarlin neighborhood,</p>	<p>We do not need a high school at this location. Please look for alternative locations that are more suitable in Arlington.</p>

<p>(Feedback from Apr 14-18) At the Kenmore M.S. site • Kenmore remains as a Middle School • Building added for a 1,300 seat Neighborhood High School* *A 1,300 seat neighborhood high school may not be able to offer all of the activities, programs, and courses that are presently offered at Wakefield, Washington-Lee, and Yorktown.</p>		
Strengths	Challenges	Other thoughts
None	<p>Student Safety: It isn't a good idea to place a high school adjacent to an elementary or middle school with additional student drivers of high school age. In addition, the challenges of negotiating an already overcrowded Carlin Springs Road with more traffic, including additional schoolbuses is very problematic. Building and additional school will leave no room for ball/soccer fields, community tennis courts and certainly will lead to parking challenges greater than even currently .</p>	<p>It will also produce a more dangerous intersection at S. Manchester and Rt. 50, Arlington Blvd as more buses and student drivers will have to enter and leave by the service road. The service road is difficult to maneuver now with only one lane available because of parked cars. This site should NOT be considered for a new high school. There are already 3 schools within a half mile.</p>
None	<p>This area is already way too crowded with multiple schools, heavy traffic. This school would be unable to offer all fo the services and activities that a school like W&L can offer.</p>	<p>This would be a terrible location for a school and I am strongly opposed to it.</p>
<p>ABSOLUTELY..it is the best option as it provides a new HS in a new area and draws from overcrowded schools</p>	<p>normal new building stuff</p>	<p>make it a HS/MS campus ...keep the MS school there...lots of places have that...not a new concept</p>
		<p>I support. BUT, if there is a concern about HS immersion not being "available" to all students because, practically speaking, Wakefield is too far away for many (which I don't agree w), why not make this new HS at the centrally-located Kenmore site THE only immersion HS and Wakefield remains a neighborhood HS?</p>

<p>(Feedback from Apr 14-18) At the Kenmore M.S. site • Kenmore remains as a Middle School</p> <ul style="list-style-type: none"> • Building added for a 1,300 seat Neighborhood High School* <p>*A 1,300 seat neighborhood high school may not be able to offer all of the activities, programs, and courses that are presently offered at Wakefield, Washington-Lee, and Yorktown.</p>		
Strengths	Challenges	Other thoughts
<p>Small high schools have been shown to better support learning, especially among students of poverty.</p>	<p>The school board should work collaboratively (is that possible??) with the county and state to mitigate traffic concerns.</p>	<p>Love (not) how this one gets the asterisk—warning! warning!—while the 3,000-seat WL is all la-di-da... how about a note of caution that students at a 3,000-seat high school won't have equitable access to athletics, arts and music programs, etc.</p>
<p>Adds needed capacity without overcrowding other schools</p>	<p>Students may not have access to the same level of education and experiences if activities, programs and courses are limited.</p>	
	<p>expensive neighborhood gets and exclusive, much smaller HS. Classic Arlington. And, the PTA funded your campaign here again - didn't they? We know ATS does and has for a long time. This is outrageous. You're proposing to blow up W-L, when you never planned for its real size since you began construction on the new building but are going to give an exclusive neighborhood an exclusive HS? What's wrong with you people?</p>	<p>If this school happens, it needs to be lottery. You're favoring a neighborhood that happens to be very wealthy, this is wrong.</p>
		<p>Would the neighborhood kids get the option to go to a bigger school if they want? Maybe make it a school that offers more challenging curriculum (STEM) and not a neighborhood high school.</p>

<p>(Feedback from Apr 14-18) At the Kenmore M.S. site • Kenmore remains as a Middle School • Building added for a 1,300 seat Neighborhood High School* *A 1,300 seat neighborhood high school may not be able to offer all of the activities, programs, and courses that are presently offered at Wakefield, Washington-Lee, and Yorktown.</p>		
Strengths	Challenges	Other thoughts
It's a good location for a HS (not near others) and there is a good amount of open space there--which is hard to come by in this county. Good access from	There would already be a MS and and ES very close to the building--adding to traffic, albeit staggered.	
A lot of land here- and the campus could be come a 6-12 community	outdoor sharing of space is hard,	This is a good idea- but would need traffic modifications etc
So great, but not the Career Center site. Could save a lot of hassle for families with children in multiple grades. Space is available.	Impact on instruction with onging construction. Carlin Springs is already overly congested. Safety issues with proximity to Rt 50, parking problems,	Could contribute to gang problems locating HS with MS. OR it could be greater resource to community if appropriate programming is delivered.
We need a 4th comprehensive neighborhood school	Kenmore property can't support an elementary, middle, and high school due to traffic / field size / etc	New school needs to support full range of activities -- it can't be a 4th rate choice
Fieldspace, cost/not moving the MS.	Traffic/not moving the MS - lot of schools packed along Carlin Springs Dr; Boundaries - how will they be re-drawn with Wakefield so close and Yorktown also along the eastern border of the County?	Acreage and cost are the biggest strengths of this option, but the boundary and traffic challenges are not to be ignored.
None	Roadways surrounding Kenmore site cannot withstand any additional traffic. .	
can't think of any	Not offering the same activities as other high schools - feels like it should be a choice school if that is the case. Also already have a middle school and elementary school there - lots of traffic concerns and mixing of students	this seems like an option that is NOT well thought out. I could see a full HS there with all the activities and programs but not a smaller version

<p>(Feedback from Apr 14-18) At the Kenmore M.S. site • Kenmore remains as a Middle School • Building added for a 1,300 seat Neighborhood High School* *A 1,300 seat neighborhood high school may not be able to offer all of the activities, programs, and courses that are presently offered at Wakefield, Washington-Lee, and Yorktown.</p>		
Strengths	Challenges	Other thoughts
None	Too much traffic in an already crowded area. Lacks comprehensive school, enrolled students are at disadvantage compared to other high schools.	least preferred option.
Space seems to be best of all three options, Location in S. Arlington connects with diversity of location, location near Rt 50 makes transportation easier,	Three schools sharing one spot might be tight	I think this is the best option
Very large location can adequately accommodate the mixed use site; centrally located in the county	a neighborhood school high school that doesn't offer all/most of the activities, programs and courses that the other 3 HS offer would be seen as a disadvantage, these students didn't have a choice to pick this school, it was their neighborhood; they are disadvantaged if they don't get access to the same clubs, arts, sports etc. as others	why is this site not considered an option for an additional IB or other speciality focused high school curriculum; then at least if the other activities, programs and courses are NOT offered like at the larger 3 high schools, then a choice has been made knowing you've chosen the curriculum over the activities
Uses land and a school site to add seats. Good option. Has enough space for parking and growth. Close to 50 and good transportation options.	Less green space for existing schools.	I wonder about a campus that goes from ES to HS. Are there any concerns about the diverse age mix and what it means for younger kids, in particular. Lessons from elsewhere?
	losing space for possible elem or middle school expansion	loss of field space in a high density area (7000 residents in Arlington Mill Civic Association)

<p>(Feedback from Apr 14-18) At the Kenmore M.S. site • Kenmore remains as a Middle School • Building added for a 1,300 seat Neighborhood High School* *A 1,300 seat neighborhood high school may not be able to offer all of the activities, programs, and courses that are presently offered at Wakefield, Washington-Lee, and Yorktown.</p>		
Strengths	Challenges	Other thoughts
<p>Smaller schools always creste a better work environment</p>	<p>Unless it's is going to be a magnet schools that had a strong programming draw like IB or HB, the county will have the same demographic issues is has with Wakefield being too heavily concentrated with a low income population</p>	
<p>By far the best of the presented options.</p>		
<p>None</p>	<p>Traffic - 3 schools on one site is just too many</p>	<p>This idea does not make sense to me; smaller sites should be for choice options as it is not equitable to not have all of the services consistent across schools funded by the same tax base</p>
<p>smaller may allow for more student engagement, walk-ability if neighborhood attendance</p>	<p>The reduced activities, programs and courses could be a significant detractor depending on how significant the differences were between the new school and other high schools. If the school were able to offer the full compliment of AP classes, arts programs, and athletic and non-athletic after school programs but lacked specialized programs such as IB, that may be a reasonable trade-off. But if students did not have access to music, arts, sports, AP, etc., that would be unacceptable.</p>	<p>If this school were chosen, it would be great to build on the strengths of Kenmore and have robust STEAM and Arts programs.</p>

<p>(Feedback from Apr 14-18) At the Kenmore M.S. site • Kenmore remains as a Middle School • Building added for a 1,300 seat Neighborhood High School* *A 1,300 seat neighborhood high school may not be able to offer all of the activities, programs, and courses that are presently offered at Wakefield, Washington-Lee, and Yorktown.</p>		
Strengths	Challenges	Other thoughts
Make it both a middle school and high school campus as most communities do		
I highly agree that making Kenmore a high school would balance out the overcrowding at W-L and give a balance county wide for the Rt 50 and surrounding area neighborhoods. W-L and Yorktown are too close locaton wise and the volume is just too high for the northern part of the county. I would be concerned the diversity would be greatly affected at W-L however and that school would become more like Yortown with the 2 schools in the north with	Traffic would be a nightmare getting in/out of that area due to the current design of the roads and parking etc. It could greatly impact in a negative way those surrounding neighborhoods.	
	There needs to be a better articulation of what could be at this school. What would draw students and families if there are limited programs? An arts focused school? The expanded languages or IB site? No one seems to have really tried to flesh out this option.	Kenmore would be a good site for a future 2200 seat comprehensive high school. Think about that potential future expansion if you build there.
None	Increased traffic in a half mile stretch, mixing of all grade levels, temporary solution, limited program offering.	Why is it necessary to build a new building when others are available?
Need a fourth neighborhood high school	Few will want to go there if it's not comparable to the other three schools	Bad idea overall - you would be creating a second-class experience for some APS
Best option. A fourth comprehensive neighborhood school is what is needed.		

<p>(Feedback from Apr 14-18) At the Kenmore M.S. site • Kenmore remains as a Middle School • Building added for a 1,300 seat Neighborhood High School* *A 1,300 seat neighborhood high school may not be able to offer all of the activities, programs, and courses that are presently offered at Wakefield, Washington-Lee, and Yorktown.</p>		
Strengths	Challenges	Other thoughts
	This location does not seem to be where the greatest need exists. Additionally the traffic concerns on long Carlin Springs are significant.	
	Building a school that cannot offer comparable programs, activities and courses is unfair to the students who to there. I suspect there will be pressure to add offerings over time in a very expensive way.	
Best option in preparing for the future.	We need the VHC parcel so that we can move the middle school there eventually	This is the biggest parcel of land. The flattest. The best option for a 4th COMPREHENSIVE high school in the future. This is the only option that makes sense.
That neighborhood might benefit from having a local high school	If the new 1,300 seat high school can't offer all of the activities, programs, and courses that are presently offered at Arlington's 3 existing high schools, this new high school won't be attractive to students and parents	
location, location, location - it is so important and it is central; another neighborhood high school is what we are going to need	will need to be creative so that the same activities, courses can be offered	
Strongly support this option. APS needs to build a 4th comprehensive high school to accommodate the increase in student enrollment.		Why can't APS complete the land swap with the VHC land, create a middle school on that property, and then be able to offer similar activities as at the other high schools?
we need this	traffic is already bad on carlyn springs	
Most room. Good transportation links.		Best option.

<p>(Feedback from Apr 14-18) At the Kenmore M.S. site • Kenmore remains as a Middle School • Building added for a 1,300 seat Neighborhood High School* *A 1,300 seat neighborhood high school may not be able to offer all of the activities, programs, and courses that are presently offered at Wakefield, Washington-Lee, and Yorktown.</p>		
Strengths	Challenges	Other thoughts
Fairly centrally located, plenty of room for an eventual comprehensive high school	Traffic on Carlin Springs, which could potentially be lessened by allowing bus services for most students	This is by far the best option, given that the Kenmore site COULD BE used as a comprehensive high school, with all of the activities, programs and courses as the other high schools in the future.
Seems to be at the heart of where growth and seats are needed	Local resistance (but you will receive that everywhere).	This is the preferred choice.
This preserves ability for 4th comprehensive hs.	Redrawing boundaries	This is the best option.
Like the idea of a neighborhood high school. Gives option to move Kenmore MS if more high school seats since more seats will be needed immediately.		Should be a comprehensive high school.
Smaller learning environment	Would need to staff an entire school, would take time to come together and gel as a community.	
None	The area is already incredibly congested with traffic in the morning. It is poorly located for improving the diversity of our schools.	Dumb idea.
None. Why can't it be a program if it's here? Make it a choice if you can't offer same amenities.	I don't understand why it has to be neighborhood zoned if it's here?	Build a 1300 choice school here, in a way that would allow for future expansion into a comprehensive HS if you can move the MS to another site at some future point.

<p>(Feedback from Apr 14-18) At the Kenmore M.S. site • Kenmore remains as a Middle School • Building added for a 1,300 seat Neighborhood High School* *A 1,300 seat neighborhood high school may not be able to offer all of the activities, programs, and courses that are presently offered at Wakefield, Washington-Lee, and Yorktown.</p>		
Strengths	Challenges	Other thoughts
	<p>I am concerned about the asterisked comment. Would students be required to attend this neighborhood high school? If so, it is a disservice and disadvantage to not allow those students the same opportunities as students attending the other 3 high schools.</p>	
<p>Build it attached to Kenmore so you can move the middle school later and turn it into a comprehensive after you move the middle school. This is by far the best option. Do this.</p>	<p>Money. That's mostly it. The neighborhood likes this idea!</p>	<p>Stop trying to force us to accept the Ed Center.</p>
<p>May be slightly closer to the locus of the projected capacity deficit than where the career center site is located</p>	<p>The asterisk noted above</p>	<p>I think it's critical that APS does whatever it can to ensure that a neighborhood high school at this location CAN offer all of the activities, programs, and courses that are presently offered at Wakefield, Washington-Lee, and</p>
<p>Closer to the real answer of building a fourth comprehensive HS.</p>	<p>Still dilutes non-classroom opportunities across more students.</p>	<p>Build the fourth comprehensive high school the county OBVIOUSLY needs. It's time to lead or get out of the way, because failure in this imperils my child's education.</p>
