

Transfers (March 30 Post-its)

Strengths	Challenges	Other
2 categories makes sense. Why aren't we doing this already. Simplify.		What is the benefit of this change?
		If transfer consider especially admission to programs or events
		Appeal language: Update language to include transparency and accountability in decisions by Asst Sup. Written transfer decisions to parents for purpose of appeal to School Board.
		Transfers should be okay even if NOT in a "neighborhood" school - this causes the "division" and lack of diversity!
		Current language or draft PIP states admission to option schools only accepted at beginning of year. As a transient area (military/state dept), there should be exceptions on case-by-case basis esp for children who been in schooled in 6+ in one instructional focus (i.e., immersion)
