Estimated Elementary School Students by Planning Unit

Data revised² in October 15, 2018

Planning Unit ⁵	Planning Unit Included in 2018 Boundary Process	Estimated K-5 Resident Elementary Students ¹ <u>Excludes</u> students attending option schools				Neighborhood Elementary School 2018-19	Neighborhood Middle School 2019-20	Considerations (School Board Policy B-2.1)					Student Demographics 2017-18 School Year								
		2019-20	2020-21	2021-22	Oct 15, 2018 enrollment estimates differ from estimates published on Sept. 26, 2018 by one or more years ²			Efficiency	Proximity (Neighborhood school walkable to)	Stability	Alignment (Middle 2019-20)	Contiguity	Actual K-5 Resident Elementary Students as of September 30, 2017 <u>Includes</u> students attending option schools	Economically Disadvantaged ³ For privacy purposes all planning units with economically disadvantaged student totals less than 10 and greater than 0 are coded as between 1 and 9 students	English Learners ⁴ For privacy purposes all planning units with English Learners student totals less than 10 and greater than 0 are coded as between 1 and 9 students	Students with Disabilities ⁴ For privacy purposes all planning units with Students with Disabilities totals less than 10 and greater than 0 are coded as between 1 and 9 students	Race and Ethnicity ⁴				
																	Asian	Black	Hispanic	White	Other

Notes:

¹ Planning Unit-level enrollment estimates for 2019-20, 2020-21, and 2021-22 were developed August 2018 and revised in October 2018.

² Corrections were made to the Planning Unit-level estimates data tables published on September 26, 2018. These changes reflect instances where expected residential construction was assigned to the incorrect planning unit, one instance that a future housing project was not included, and an adjustment to each planning unit's three-year average kindergarten share. In addition, the Gilliam Place project was recalculated with the county-wide Committed Affordable Units (CAF) student generation rate of 0.338.

³ Economically Disadvantaged status taken from Synergy for the 2017-18 school year.

⁴ Students demographics from the September 30, 2017, Student Record Collection.

⁵ Planning unit 37050 will be split under this proposal. The new planning unit will be identified as 37051.

Boundary Policy Considerations

Efficiency is coded “Bus Eligible” if the planning unit requires bus service to the neighborhood school and coded “Walk Zone” if the planning unit does not require bus service to the neighborhood school.

Proximity is coded “Not Applicable” if the planning unit is not within a neighborhood elementary school walk zone. The name of the school is provided (ex. Abingdon) when a planning unit is within a neighborhood elementary walk zone. Only neighborhood schools are included in the walk zone boundaries because students residing within an option school’s walk zone boundary are not guaranteed a seat. Conversely, students residing in neighborhood school’s walk zone boundary are guaranteed a seat. Stability for all planning units was coded “Yes” because none of the students who will be part of this boundary change have been impacted by another elementary boundary change in recent years.

Alignment shows the neighborhood middle school in 2019. Alignment will be reassessed after boundary proposals are created to determine if small groups are separated from their peers as they transition to middle school.

Contiguity is coded “Yes” if the planning unit is attached to other nearby planning units that form the attendance boundary, and “No” if the planning unit is detached from other planning units that form the attendance boundary.

Demographics shows the estimated number of students by planning unit that are economically disadvantaged.

General Notes:

The entire planning unit must be within the walk zone to be coded as proximate or efficient.

The Fall 2018 elementary boundary process uses resident student estimates by planning unit.
