Our Mission

The Arlington READY Coalition provides an on-going community-wide forum that identifies strategies to keep teens drug- and alcohol-free.

What We Do

As part of the Arlington Community, we provide information to increase understanding about the risks associated with underage alcohol and drug use. We work to help youth and the adults in their lives to recognize that alcohol and drug use is risky and will not help them achieve their goals.

How We Do It

We work with Arlington Public Schools, County Agencies, community organizations, teen groups, faith groups, and local businesses to develop ways to help youth in Arlington make choices that don't include alcohol or drugs.
