**Announcements: Liaison Report from FAC**

On February 21st, the FAC (the Advisory Council on School Facilities and Capital Programs) presented a set of recommendations to the School Board. The overall objective is to expand and strengthen the current planning tool - the AFSAP. (Arlington School Facilities and Student Accommodation Plan) APS generates an AFSAP in alternate years, and adopts a new Capital Improvement Plan (CIP) in alternate years. The cycle is that the AFSAP one year informs the thinking behind the CIP in the following year. The current year is an AFSAP production year.

The FAC recommends that the AFSAP be improved and expanded by (1) including a longer-range vision within this plan (current AFSAP and CIP time frames are ten years out); (2) integrating elements of existing APS and County plans from the Department of Teaching and Learning, Transportation and the County and APS Strategic Plans; (3) more closely aligning the AFSAP with County planning processes so that APS needs can more easily be understood and met by the County; and (4) refining some elements to better define current conditions.
