### STAGE 1 – DESIRED RESULTS

**Unit Title:** Theme 1 - Identity  

**Themes/Concepts:** Identity  

**Enduring Understandings:**

> What specifically do you want students to understand?  
> What inferences should they make?  

*Students will understand that...*

- They are unique individuals that come together to form a community with common interests.  
- They have responsibilities towards the well-being of their community.

**Essential Questions:**

> What thought-provoking questions will foster inquiry, meaning-making, and transfer?  

*What makes a community?  
What responsibilities do they have towards the well-being of their community?*

### Students will know:

What facts and basic concepts should students know and be able to recall? What is the key vocabulary (include tiers of vocabulary: basic, frequently occurring, content specific)?

**Link to** Theme 1 Exploratory K-2

- how to express why their friends are important to them. (*estar*, *tener*, *ser*, *querer*, *poder*, *saber*, *gustar*, *dar*)

- different kinds of communities within and outside of their school. (*haber*, *ser*, *tener*, *gustar*, *necesitar*)

- how they are the same and different from other members of their communities. (*ser*, *tener*, *gustar*)

---

### Students will be able to:

What discrete skills and processes should students be able to use?

- list the qualities that they like/want in a friend and list the qualities that they do not like/want in a friend
- listen to and describe what their friends can and cannot do.
- describe your friends’ favorite qualities.
- express what your friends know about you.

- understand the definition of a community. (Una comunidad es un grupo de personas que tienen algo en común.)
- name some small, medium and large communities.
- read and respond to questions involving short texts, pictures and movie clips related to different types of communities.

- describe themselves using adjectives
- describe how they and their friends are alike and different from other members of their communities.

Performance Tasks:

The Performance Task is a culminating performance through which students demonstrate their ability to answer the Essential Questions and the Enduring Understandings they have acquired. Performance Tasks typically present students with a problem: a real-world goal, set within a realistic context of challenges and possibilities. Students develop a tangible product or performance for an identified audience, and the evaluative criteria and performance standards are appropriate to the complex task—and known by the students in advance.

Other Evidence:

What kinds of evidence are needed to provide formative and/or summative information to guide instruction and draw conclusions about student knowledge and skill? What specific characteristics in student responses, products, or performances should we examine? Does the proposed evidence enable us to infer a student’s knowledge, skill, and understanding (Stage 1)? Does the assessment method match what the teacher is trying to measure?
