Workshop Title	Description	Presenter(s)	Grade Level
<b>Executive Functioning: Skills of Self-Management</b>	What are executive functions? How do these functions impact a student? Participants will learn about different skill areas under the umbrella of Executive Functioning (EF), as well as strategies through interactive and hands-on activities.	Anna Kim	All grade levels
<b>Preparing for AP Classes: Behaviors, Attitudes, Expectations</b>	This workshop will provide an overview from Educator, Parent, and Student perspectives on preparing for taking AP courses. Additionally, parents will be given information on the AP offerings at Wakefield High School.	Verlese Gaither	Middle and High School
<b>Equity &amp; Inclusion for Minorities: Prepping Your Child for In-Demand and High-Wage Careers in Information Technology (IT) &amp; STEM</b>	This session will provide resources for helping students and parents to make sound decisions in preparing students for future careers in the Information Technology, Computer Science and Cyber Security fields of study and training. This workshop will also assist with creating a road map for increasing involvement in underrepresented minorities in these areas.	Phyllis Gandy	Middle and High School
<b>Math Workshop: The Task &amp; Share Structure</b>	Participants will get a glimpse of how their child(ren) are currently learning mathematics. Participants will learn about and engage in one structure of Math Workshop: The Task & Share Structure.	Shannan Ellis Christine Chapuis	Elementary
<b>Introduction to Naviance: A College and Career Planning Tool</b>	This session will provide an overview of tools that middle school and high school can use to prepare for life after high school.	Elyse Catino Sharon Kolody	Middle and High school
<b>Standards-Based Grading in Elementary</b>	Learn more about the method of evaluating student skill mastery. Standards-based grading is intended to help students, families, and teachers understand accurately how students are doing as they work on developing their skills. It is not an assignment-based or productivity-mindset way of understanding what children can do.	Breonna McClain	Elementary
<b>Gifted Services</b>	This session will focus on best practices APS uses in a holistic case study approach to identify historically underrepresented students for gifted services. In addition, this session will focus on how the collaborative cluster model for delivering services works in elementary and middle school.	Cheryl McCullough	Elementary and Middle School
<b>EIP: Early Identification Program at George Mason</b>	Participants will gain a better understanding of The George Mason University's Early Identification Program. EIP provides access to educational resources for middle and high school students who will be the first in their families to attend a college or university.	Leslie Stockton Khaseem Davis	Middle School
