

MEMORANDUM

TO: Cintia Z. Johnson, Interim Superintendent
FROM: Dr. Jeannette Allen, Acting Assistant Superintendent
SUBJECT: Narrative on 2019-20 Class Size Report

Overview

The 2019-20 Class Size Report provides information on the distribution of students within classes at each school. Planning factors are included each year as part of the adopted APS budget. These planning factors are used as a guide to determine staffing at each school. It is also important to recognize that there will be different variances across schools due to distribution of students in classes based on scheduling needs and student selection of courses.

The information provided in this class size report includes class sizes for elementary, middle, and high school levels, class sizes for secondary SOL courses, and class sizes for Arlington Community High School, the Career Center, Langston, and the New Directions Program.

At the elementary level, it should be noted that there are a few situations where classes have exceeded the recommended maximum after the start of the school year, and provisions have been made according to school board policy. The staffing committee meets regularly to monitor the numbers and make the necessary staffing adjustments as needed.

At the middle and high school levels, the report includes a number of course codes with a small number of students. In many of these cases, courses are combined for certain HILT and HILTEX classes, language classes, and fine arts classes. At some of our alternative programs, single digit numbers may indicate students taking on-line versions of these courses. Finally, it should be noted that this report represents one point in time and adjustments/changes in some class numbers may have been made since the information was collected.

In addition to the report of class sizes for elementary, middle, and high school, information is also provided showing differences between this year and past years for specific areas.

Elementary Class Sizes:

A study of elementary class sizes shows a continued result in average class sizes at or below the planning factor guidelines.

	K	1	2	3	4	5
Recommended Maximum	24	24	26	26	27	27
2017	21.92	20.03	21.51	21.61	22.55	22.51
2018	21.30	20.80	20.70	22.20	22.30	22.60
2019	20.6	21.1	21	21.4	21.8	23.4

Core and World Languages Classes at 27 or more:

In the report there are classes with enrollments of 27 or more at both the middle and high school levels. Some electives, such as band and P/E classes, operate at these levels. There are core and world language classes at the middle school level with enrollments of 27 or more and core and world language classes at the high school level with enrollment of 27 or more. These are provided on separate pages of this report.

In speaking with principals, many of the larger classes are the result of student requests for classes and the challenge of scheduling students to try and meet these requests. This sometimes results in an uneven distribution of students in classes for the same course. In other cases, these are singleton classes for some courses and schools manage to those numbers. When there are larger numbers, the principals report that they usually assign an additional teacher (Special Education or HILT teacher) to work with some of the students in those classes. They also report that these numbers change over time as students make changes or teachers recommend movement to another level for the same course.
