Arlington Public Schools

May 2021

Kenmore STEAM classes constructed a modified version of a Comparetto Cube filter (CFM) that were given to the teachers. Students measured the CFM's of the filters and calculated the air exchange rate for the classroom. Jeff Politzer is the class instructor.

Students in Ms. Boda's Family and Consumer Sciences classes at Jefferson created their own version of a TikTok tortilla hack, which were used to demonstrate understanding of the MyPlate Guide to Good Eating.

Dr. Lane, Virginia's 25th Superintendent of Public Instruction, visited the Arlington Career Center.
