

Real Food for Kid 2021 Culinary Challenge

Two Yorktown High School Students competed in the 2021 Culinary Challenge, Grab and Go. This year's Real Food for Kid Culinary Challenge was in the lunch category only. The students had to be prepared to share how their meals fuels them for a physical activity in which they like to participate, and the recipes had to be easy to prepare at home.

Will Ramsey and Jacob Friend won Chef's Choice Awards! They each developed a plan for school lunch, costed the meal and did a nutritional analysis.

Mr. Nolen's ACT II after school class competed in NOVA Fab Lab Design Challenge hosted by Amtek for the NOVA SySTEMic group.

The contest asked for a toy or game to be made using 3D technology and upcycled things around the house.

One of Mr. Nolen's student chose bottle corks and made a little 3D printed animal halves for a farm set. She named her creation, Corkables. She came in Second Place!

She gets free design software and multiple meetings with a marketing specialist to help her submit her idea to companies like Hasbro!

Congratulations!

Fabrication of Product Award (includes virtual design and file support)

CAREER CENTER TV PRODUCTION STUDENTS WIN STATE AWARDS

Arlington, June 2, 2021, 12:00p.m. ---- Career Center Television Production students were awarded State SkillsUSA Championship medals outside the Arlington Career Center by SkillsUSA representative, Dr. Lee Ross. 13 Television Production students competed in six different contests and all were awarded medals. The competitions were held virtually on April 20-21, 2021.

Leading the way for the Career Center were Lina Barclay (11th grade) and Ellie Nix (11th grade) who won the first-place gold medal in the Television (Video) Production contest. They had four hours to plan, shoot and edit a video adhering to the prompt- "Education During Covid". Lina and Ellie qualify for the National SkillsUSA Virtual Championships on June 11th. They will be part of the Virginia team that is competing against the rest of the country. [Gold Medal Video-Television\(Video\) Production](#)

Peter Collins (12th grade) and Emilio Tognelli (12th grade) won the first-place gold medal in the Television Production- Pre-Produced- Cuts Only contest with their piece on addiction. [Gold Medal Video- Cuts Only- Addiction](#)

The team of Lina Barclay, Ellie Nix, Maddie Muir (11th grade) and Cameron McGehee (11th grade) earned the first-place gold medal in TV Production- Pre-Produced- Special Effects for their piece on anxiety. [Gold Medal Video- Special Effects- Anxiety](#)

SkillsUSA is a national organization that focuses on leadership skills for high school students. Students are given the opportunity to compete in contests against their peers at the local, state, and national levels. All contests are run by and judged by industry, using industry standards for employment.

All students are members of Tom O'Day's Television Production classes at the Arlington Career Center.

Below is the list of all the gold, silver and bronze medal winners for the Arlington Career Center.
