PUPIL TRANSFER REPORT 2007-08

Information about transfers of students within Arlington is reported annually. Prior to 2003-04, the numbers reported included only students classified as instructional or regular transfers and students who enrolled in countywide or area programs. Beginning with the 2003-04 report, all transfer types were included. All data reported in this year's report reflect enrollment as of October 31, 2007. Only students in kindergarten through grade 12 are reported.

TYPES OF TRANSFERS

Neighborhood (Regular) – These are transfers requested by parents or guardians, as described in APS Policy 25-2.2. The number of transfers allowed into most schools is limited to five percent based on the previous September 30 membership. Any neighborhood elementary school where projected enrollment within the next three years exceeds 95% of its facility's capacity is not eligible to accept non-sibling transfers. Any neighborhood school that is not projected to reach 95% of its capacity within the next three years may exceed the five percent transfer limit but only from schools at or projected to reach 95% of capacity within the next three years. Appendix A lists all schools with the five percent limit and the number and percent of regular transfers enrolled during 2007-08.

Administrative and Special Placement – Students may be placed in a school other than their home school if it is determined that there is a medical or psychological reason for the placement or the local courts request that APS place a student in a school other than his or her home school. Special education students may also be placed to meet the requirements of their individual education plans. In addition, there are other individual circumstances that are considered by the Assistant Superintendent of Administrative Services.

Beginning in 2006-07, federal law regarding provision of special education services to students attending private schools changed so that those students now receive services at the public school nearest to the private school attended rather than the school nearest to where they live. This means that there are now special education students who reside outside of Arlington who are receiving special education services in APS schools. These students are reported as administrative transfers.

Crowded Schools – Any neighborhood school that is not projected to reach 95% of its capacity within the next three years may exceed the five percent transfer limit but only from schools at or projected to reach 95% of capacity with the next three years.

Extended Attendance Area – A variety of types of area and countywide schools and programs are included in this category.

- Countywide schools: Some schools are considered to be alternative instructional units available to students from throughout the system, and placement of students in these schools is not considered to be a transfer. These include **Arlington Traditional School (ATS)**, **Drew Model School**, and **H-B Woodlawn**. With the exception of a small area at Drew, these schools have no attendance areas. All students who attend these schools, except for the small number at Drew who are assigned to Drew, are included in this report.

- Area or cluster schools: Some schools serve a designated area of the county. These include **Barrett, Campbell, Claremont, Key, and Kenmore**. Barrett, Key, and Kenmore have school boundaries, which means they have students for whom this is their neighborhood school. Like the countywide schools, **Campbell** and **Claremont** have no boundaries, so all students who attend them are reflected in this report. Unlike the countywide schools, Campbell and Claremont have a designated set of schools whose students have priority to attend them.
- Special programs within schools: Some neighborhood schools have special programs that are available to students outside their boundaries without being included in the five percent limit for regular transfers. These include the **Montessori programs at Glebe, Hoffman-Boston, McKinley, and Taylor** (only kindergarten students are included in this report). Secondary **immersion programs** are housed **at Gunston and Wakefield**. Other special programs within a school are the **Advanced Placement Network at Wakefield High School** and the **International Baccalaureate (IB) Program at Washington-Lee High School**.

Fort Myer - Employees at Fort Myer are allowed to enroll their children at Henry and Long Branch to accommodate after school care.

No Child Left Behind (NCLB) – For Title 1 schools that fail to make Adequate Yearly Progress in the same subject for two or more years in a row, students may transfer to another designated school. Students from Barcroft, Carlin Springs, Hoffman-Boston, and Randolph were eligible for NCLB transfers during 2007-08. In addition, students from Abingdon and Barrett who transferred under NCLB when those schools were required to offer transfers are reported as NCLB transfers, if they are still attending the school they chose under NCLB.

Professional Courtesy – APS employees who are Arlington residents may request transfer of their children from their home school to the school in which they work or the one that is closest to their work location unless those schools or programs have specific enrollment procedures, in which case the employee must follow those procedures. The number of professional courtesy transfers at a school may not cause a school to exceed 95% of its capacity.

Residence Changes – Policy 25-2.2 describes certain circumstances in which students may continue to attend a school after the student moves out of its boundaries.

Staff Tuition Initiative – Under these procedures, the children of fulltime employees who live outside of Arlington may request to have their children attend certain Arlington schools for a nominal student tuition fee. Applications must be approved, and the number of such students may be limited. Not all schools can accept students under this program.

Team – Arlington Science Focus (ASF), Jamestown, Key, and Taylor schools together are considered a team for enrollment purposes. ASF and Key share the same boundaries. Students from the team schools may be placed at any of the other team schools without being included in the five percent limit applied to regular transfers. The number of transfers allowed is limited to the space availability at each site.

CONTENT OF REPORT

Table 1 is a division summary of students in kindergarten through grade 12 who have transferred to any school. All students are included, and numbers are shown by ethnicity and transfer type. Table 1 displays the percent of students in each group who are at a school and do not reside within that school's boundaries. This includes all students at countywide and area schools and out-of-county students attending through the staff tuition initiative.

Tables 2, 3, and 4 summarize for each school the number of students who left the school ("Sent") and the number enrolled at that school that transferred in ("Received"). The proportion of students gained or lost is included for each ethnic group and for each school as a whole. The percent gain or loss reflects a comparison between the number of students who live in the school boundaries compared with the number of students attending the school. Finally, these gains or losses are rank-ordered by the amount of loss. This means that the school that lost the most students within any group or school is ranked as 1.

The final set of pages shows detailed school-level information. For each neighborhood school, there is a "From" table that shows the number of students who left the school and reports them at the school to which they transferred. The receiving schools are sorted so that all countywide or area schools are listed first ("Extended Attendance Area").

Appendix C

Transfer Rates for Schools Subject to the Five Percent Limit

Includes Only Students Classified as Regular and Professional Courtesy Transfers

According to PIP 25-2.2, schools may accept transfers as long as the number of transfers does not exceed five percent based on the previous September 30 student membership report. Any neighborhood school where projected enrollment within the next three years exceeds 95 percent of its facility's capacity is not eligible to accept non-sibling transfers.

Any school that is projected to be at less than 95 percent of capacity for the next three years may accept transfers in excess of 5 percent from schools over 95 percent.

At the secondary level, exceptions are made for the AP Network Program at Wakefield, the IB program at Washington-Lee, and the immersion program at Gunston and Wakefield. Any school where projected enrollment within the next three years exceeds the facility's capacity will not be eligible to receive transfers.

Listed below are all the schools subject to the five percent limit. The table shows the percentage of student who were transfers based on the September 30, 2006, membership totals in grades K through 12.

Level	School	9/30/06 K-12 Enrollment	Number of Regular Transfers Received 10/31/07	Percent of Enrollment
Elementary	Abingdon	317	9	2.8%
	Ashlawn	325	19	5.8%
	Barcroft	283	23	8.1%
	Barrett	332	25	7.5%
	Carlin Springs	415	8	1.9%
	Glebe	306	26	8.5%
	Henry	307	20	6.5%
	Hoffman-Boston	284	45	15.8%
	Jamestown	500	18	3.6%
	Long Branch	398	26	6.5%
	McKinley	369	7	1.9%
	Nottingham	428	14	3.3%
	Oakridge	414	19	4.6%
	Randolph	315	20	6.3%
	Taylor	572	19	3.3%
