■ What is Swing Space?

Swing Space is a facility or facilities that can be used by a school for 1-2 years while its building is being renovated.

Introduction to Swing Space

FY 2025-34 CIP directs APS to:

- Prioritize the renovations of existing APS school facilities using the framework in the CIP approved June 23, 2022.
- Identifying and explore all options for elementary school swing space by Spring 2023 to support the renovation projects targeted to begin Fall 2026.

(Task 4)

Project Breakdown

Task 1.

- Identify a comprehensive list of swing space options by Dec. 1, 2022

Task 2.

- Provide educational specifications for elementary swing space by Dec. 1, 2022
- Use existing APS Elementary School Educational Specifications as a starting point to develop the educational specifications for swing space.

Project Breakdown (cont.)

Task 3.

Establish the criteria that will be used to evaluate swing space options by Feb. 1, 2023

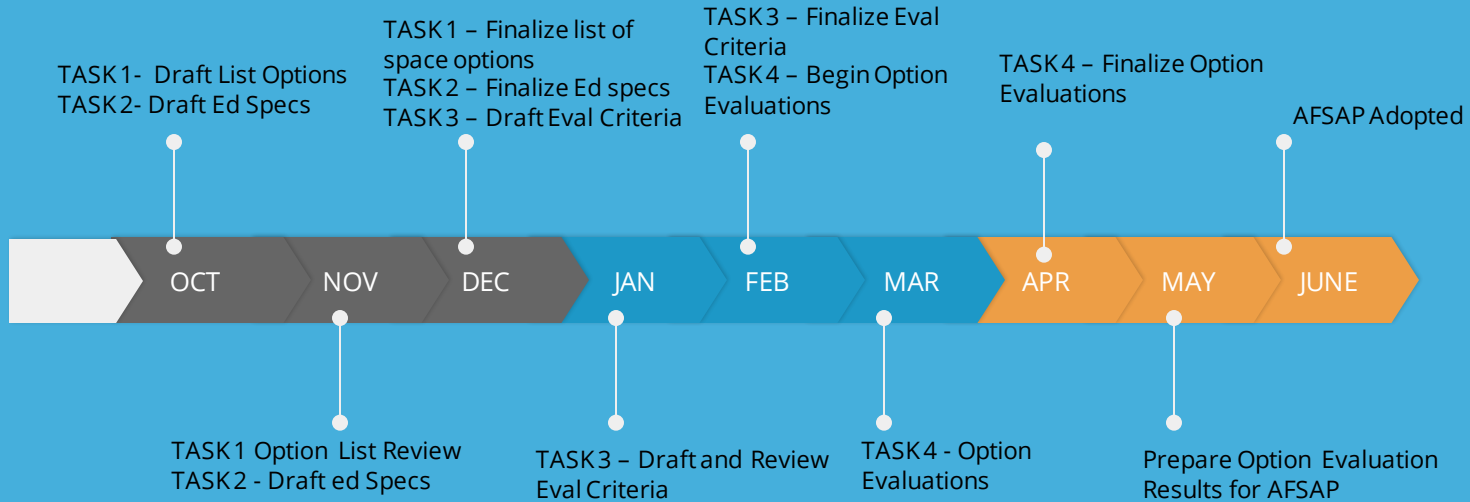

An initial list of criteria includes:

- Timeline of availability
- Educational Specifications and Capacity
- Cost estimates
- Change in use: How will the swing space option impact current use of existing facility?
- Complexity of the Swing Space: Identify and describe the potential processes needed to make the space work

Task 4.

- Evaluate each swing space option (Task 1), using the criteria (Tasks 2 & 3) and include the results for all options in the June 2023 AFSAP. Including all results provides transparency for all stakeholders.

Discussion

Swing Space Possibilities: Find new spaces

APS property

- Repurpose existing elementary school, redrawing boundaries
- Repurpose the Washington-Liberty Annex, when the new ACC building opens
- Repurpose Syphax building
- Place ES students in a MS with open capacity
- Other

Non-APS property

- Rent office space
- Rent other private facility (church)
- Repurpose a community center
- Repurpose another County facility
- Other County Alternatives:
 - Green field (parkland? Adjacent to a school?)
 - Carlin Springs Urgent Care site, Buck property
- Letter from County Manager

Additional Swing Space Possibilities

Ideas based on Instructional Changes

- Two-Shift days (doubles capacity of single building)
- 4-quarter "year-round" multi-track building use (increases capacity 25%)
- Divide a School across two non-school facilities for 1-2 years: Create upper and lower ES
- Divide a school temporarily across neighboring schools (by geography or moving entire grade cohorts)

Other

- Collaborate with YMCA
- Create a temporary Relocatable Village on any available land (APS, County or private)
- Find a location outside the County

Swing Space Next Steps

1. Review List of Swing Spaces with Principals

Questions to Ask:

- What is missing from List of Spaces?
- What types of spaces would you add?
- What specific sites would you add?
- Reactions?

2. Request that Principals provide new suggestions to Michelle by November 21.

3. Michelle will send combined list to Iliana Gonzales
