# VALUES INFORMING STRATEGIC PLAN DEVELOPMENT AND ENGAGEMENT

## ALL STUDENTS AT THE CENTER

Students are at the center of every decision we have made about the processes of building our next strategic plan, including prioritizing in-person student focus groups, ensuring that ALL students are represented through the other engagement processes, and using the word "student" intentionally in the foundations questionnaire

## EQUITABLE REPRESENTATION

To ensure historically under-represented populations and groups were intentionally and systematically included, we approached the selection of students, families, and community groups for focus group participation through an equity lens.

## EQUITY OF VOICE

We are soliciting and using feedback through the development process in ways that respect the equity of voice of each individual.

## INCLUSIVITY

The approach for the foundations development is to enable ALL members of the APS community to inform the revision to the Strategic Plan foundations. This is accomplished by providing multiple opportunities for input and feedback and use of targeted outreach and engagement opportunities.
