

A photograph of two young students in a science laboratory. They are both focused on looking through microscopes. The student on the left is holding a pipette, and the student on the right is adjusting the microscope. The background shows lab equipment and shelves. The entire image is overlaid with a semi-transparent green filter.

2024
APS

EXTENDED SCHOOL YEAR
(ESY)

SEC.300.106 FEDERAL DEFINITION-IDEA

- In general, ESY refers to special education and/or related services provided beyond the normal school year of a school division for the purpose of providing FAPE to a student with a disability. The IEP team must determine whether the benefits the child gained during the regular school year will be **significantly jeopardized** if the student does not receive ESY. ESY will vary in type, intensity, location, inclusion of related services, and length of time, depending on the individual needs of the student.

ESY ELIGIBILITY CATEGORIES

- The goals selected for ESY constitute a critical life skill AND there is one of the following:
 - 1. Data showing Regression/Recoupment over a break
 - 2. Degree of Progress is significantly limited and will affect life functioning
 - 3. Student has an Emerging Skill that requires continued instruction to be maintained
 - 4. Interfering Behaviors that require continuous instruction (the student likely has a BIP and/or a safety plan)
 - 5. Nature and Severity - the areas of learning crucial to attaining the goal of self-sufficiency.

2024 DETAILS

- In Person -With Special Education Teachers working on Critical Life Skill IEP Goals
