Standards-Based Progress Report 1st Grade - Quarter 1

Attendance	Q1	Q2	Q3	Q4	Total
Days Absent					
Times Tardy					

Phone Number: () -Principal:

Performance Level Descriptors						
4 Extending the Standard In addition to meeting the standard, the student shows in-depth understand application of the standard.						
The student shows full and consistent understanding of the standard independently.						
2 Approaching the Standard	The student shows partial and/or inconsistent understanding of the standard independently.					
1 Developing the Standard The student shows initial understanding of the standard with support.						
NT Not taught this quarter						
IN Introduced but not assessed this quarter						

Utilizes counting strategies to determine and describe quantities up to 120 Represents, compares, and orders quantities up to 120 Uses reasoning and justification to solve problems that involve partitioning models into two and four equal-sized parts Computation and Estimation Investigates, recognizes, and describes part-part-whole relationships for numbers up to 20 Represents, solves, and justifies solutions to single-step problems using addition and subtraction with whole numbers within 20 Recalls with automaticity addition and subtraction facts within 10 Measurement and Geometry Uses nonstandard units to measure and compare objects by length, weight, and volume Describes, sorts, draws, and names plane figures and composes larger plane figures by combining simple plane figures Understands the concept of passage of time and the calendar Probability and Statistics Applies the data cycle with a focus on object graphs, picture graphs, and tables Patterns, Functions, and Algebra Identifies, describes, extends, creates, and transfers repeating patterns and increasing patterns using representations	Mathematics	Q1	Q2	Q3	Q4
Represents, compares, and orders quantities up to 120 Uses reasoning and justification to solve problems that involve partitioning models into two and four equal-sized parts Computation and Estimation Investigates, recognizes, and describes part-part-whole relationships for numbers up to 20 Represents, solves, and justifies solutions to single-step problems using addition and subtraction with whole numbers within 20 Recalls with automaticity addition and subtraction facts within 10 Measurement and Geometry Uses nonstandard units to measure and compare objects by length, weight, and volume Describes, sorts, draws, and names plane figures and composes larger plane figures by combining simple plane figures Understands the concept of passage of time and the calendar Probability and Statistics Applies the data cycle with a focus on object graphs, picture graphs, and tables Patterns, Functions, and Algebra Identifies, describes, extends, creates, and transfers repeating patterns and increasing patterns using representations	Number & Number Sense				
Uses reasoning and justification to solve problems that involve partitioning models into two and four equal-sized parts Computation and Estimation Investigates, recognizes, and describes part-part-whole relationships for numbers up to 20 Represents, solves, and justifies solutions to single-step problems using addition and subtraction with whole numbers within 20 Recalls with automaticity addition and subtraction facts within 10 Measurement and Geometry Uses nonstandard units to measure and compare objects by length, weight, and wolume Describes, sorts, draws, and names plane figures and composes larger plane figures by combining simple plane figures Understands the concept of passage of time and the calendar Probability and Statistics Applies the data cycle with a focus on object graphs, picture graphs, and tables Patterns, Functions, and Algebra Identifies, describes, extends, creates, and transfers repeating patterns and increasing patterns using representations	Utilizes counting strategies to determine and describe quantities up to 120				
Computation and Estimation Investigates, recognizes, and describes part-part-whole relationships for numbers up to 20 Represents, solves, and justifies solutions to single-step problems using addition and subtraction with whole numbers within 20 Recalls with automaticity addition and subtraction facts within 10 Measurement and Geometry Uses nonstandard units to measure and compare objects by length, weight, and volume Describes, sorts, draws, and names plane figures and composes larger plane figures by combining simple plane figures Understands the concept of passage of time and the calendar Probability and Statistics Applies the data cycle with a focus on object graphs, picture graphs, and tables Patterns, Functions, and Algebra Identifies, describes, extends, creates, and transfers repeating patterns and increasing patterns using representations	Represents, compares, and orders quantities up to 120				
Investigates, recognizes, and describes part-part-whole relationships for numbers up to 20 Represents, solves, and justifies solutions to single-step problems using addition and subtraction with whole numbers within 20 Recalls with automaticity addition and subtraction facts within 10 Measurement and Geometry Uses nonstandard units to measure and compare objects by length, weight, and volume Describes, sorts, draws, and names plane figures and composes larger plane figures by combining simple plane figures Understands the concept of passage of time and the calendar Probability and Statistics Applies the data cycle with a focus on object graphs, picture graphs, and tables Patterns, Functions, and Algebra Identifies, describes, extends, creates, and transfers repeating patterns and increasing patterns using representations	Uses reasoning and justification to solve problems that involve partitioning models into two and four equal-sized parts				
Represents, solves, and justifies solutions to single-step problems using addition and subtraction with whole numbers within 20 Recalls with automaticity addition and subtraction facts within 10 Measurement and Geometry Uses nonstandard units to measure and compare objects by length, weight, and volume Describes, sorts, draws, and names plane figures and composes larger plane figures by combining simple plane figures Understands the concept of passage of time and the calendar Probability and Statistics Applies the data cycle with a focus on object graphs, picture graphs, and tables Patterns, Functions, and Algebra Identifies, describes, extends, creates, and transfers repeating patterns and increasing patterns using representations	Computation and Estimation				
Recalls with automaticity addition and subtraction facts within 10 Measurement and Geometry Uses nonstandard units to measure and compare objects by length, weight, and volume Describes, sorts, draws, and names plane figures and composes larger plane figures by combining simple plane figures Understands the concept of passage of time and the calendar Probability and Statistics Applies the data cycle with a focus on object graphs, picture graphs, and tables Patterns, Functions, and Algebra Identifies, describes, extends, creates, and transfers repeating patterns and increasing patterns using representations	Investigates, recognizes, and describes part-part-whole relationships for numbers up to 20				
Measurement and Geometry Uses nonstandard units to measure and compare objects by length, weight, and volume Describes, sorts, draws, and names plane figures and composes larger plane figures by combining simple plane figures Understands the concept of passage of time and the calendar Probability and Statistics Applies the data cycle with a focus on object graphs, picture graphs, and tables Patterns, Functions, and Algebra Identifies, describes, extends, creates, and transfers repeating patterns and increasing patterns using representations	Represents, solves, and justifies solutions to single-step problems using addition and subtraction with whole numbers within 20				
Uses nonstandard units to measure and compare objects by length, weight, and volume Describes, sorts, draws, and names plane figures and composes larger plane figures by combining simple plane figures Understands the concept of passage of time and the calendar Probability and Statistics Applies the data cycle with a focus on object graphs, picture graphs, and tables Patterns, Functions, and Algebra Identifies, describes, extends, creates, and transfers repeating patterns and increasing patterns using representations	Recalls with automaticity addition and subtraction facts within 10				
Describes, sorts, draws, and names plane figures and composes larger plane figures by combining simple plane figures Understands the concept of passage of time and the calendar Probability and Statistics Applies the data cycle with a focus on object graphs, picture graphs, and tables Patterns, Functions, and Algebra Identifies, describes, extends, creates, and transfers repeating patterns and increasing patterns using representations	Measurement and Geometry				
by combining simple plane figures Understands the concept of passage of time and the calendar Probability and Statistics Applies the data cycle with a focus on object graphs, picture graphs, and tables Patterns, Functions, and Algebra Identifies, describes, extends, creates, and transfers repeating patterns and increasing patterns using representations	Uses nonstandard units to measure and compare objects by length, weight, and volume				
Probability and Statistics Applies the data cycle with a focus on object graphs, picture graphs, and tables Patterns, Functions, and Algebra Identifies, describes, extends, creates, and transfers repeating patterns and increasing patterns using representations	Describes, sorts, draws, and names plane figures and composes larger plane figures by combining simple plane figures				
Applies the data cycle with a focus on object graphs, picture graphs, and tables Patterns, Functions, and Algebra Identifies, describes, extends, creates, and transfers repeating patterns and increasing patterns using representations	Understands the concept of passage of time and the calendar				
Patterns, Functions, and Algebra Identifies, describes, extends, creates, and transfers repeating patterns and increasing patterns using representations	Probability and Statistics				
Identifies, describes, extends, creates, and transfers repeating patterns and increasing patterns using representations	Applies the data cycle with a focus on object graphs, picture graphs, and tables				
patterns using representations	Patterns, Functions, and Algebra				
Strangths and Goales	Identifies, describes, extends, creates, and transfers repeating patterns and increasing patterns using representations				
Strongths and Goals:			·		
Sucriguis and Goals.	Strengths and Goals:				

Q1	Q2	Q3	Q4
	Q1	Q1 Q2	Q1 Q2 Q3

Strengths and Goals:

Foundations for Reading Orally identifies and produces various phonemes (individual sounds) within words to develop phonemic awareness Applies phonetic principles to read Applies phonetic principles to spell words Reading and Vocabulary Builds vocabulary and word knowledge based on grade one content and texts heard or read Reading Literary Text and Informational Text Uses textual evidence to demonstrate comprehension and build knowledge from a variety of literary and informational texts heard or read Foundations for Writing and Language Use Produces and expands complete sentences Writing and Research Writes in a variety of forms linked to grade one content and texts Communication and Multimodal Literacies Develops effective oral communication and collaboration skills	23 Q4
develop phonemic awareness Applies phonetic principles to read Applies phonetic principles to spell words Reading and Vocabulary Builds vocabulary and word knowledge based on grade one content and texts heard or read Reading Literary Text and Informational Text Uses textual evidence to demonstrate comprehension and build knowledge from a variety of literary and informational texts heard or read Foundations for Writing and Language Use Produces and expands complete sentences Writing and Research Writes in a variety of forms linked to grade one content and texts Communication and Multimodal Literacies	
Applies phonetic principles to spell words Reading and Vocabulary Builds vocabulary and word knowledge based on grade one content and texts heard or read Reading Literary Text and Informational Text Uses textual evidence to demonstrate comprehension and build knowledge from a variety of literary and informational texts heard or read Foundations for Writing and Language Use Produces and expands complete sentences Writing and Research Writes in a variety of forms linked to grade one content and texts Communication and Multimodal Literacies	
Reading and Vocabulary Builds vocabulary and word knowledge based on grade one content and texts heard or read Reading Literary Text and Informational Text Uses textual evidence to demonstrate comprehension and build knowledge from a variety of literary and informational texts heard or read Foundations for Writing and Language Use Produces and expands complete sentences Writing and Research Writes in a variety of forms linked to grade one content and texts Communication and Multimodal Literacies	
Builds vocabulary and word knowledge based on grade one content and texts heard or read Reading Literary Text and Informational Text Uses textual evidence to demonstrate comprehension and build knowledge from a variety of literary and informational texts heard or read Foundations for Writing and Language Use Produces and expands complete sentences Writing and Research Writes in a variety of forms linked to grade one content and texts Communication and Multimodal Literacies	
Reading Literary Text and Informational Text Uses textual evidence to demonstrate comprehension and build knowledge from a variety of literary and informational texts heard or read Foundations for Writing and Language Use Produces and expands complete sentences Writing and Research Writes in a variety of forms linked to grade one content and texts Communication and Multimodal Literacies	
Uses textual evidence to demonstrate comprehension and build knowledge from a variety of literary and informational texts heard or read Foundations for Writing and Language Use Produces and expands complete sentences Writing and Research Writes in a variety of forms linked to grade one content and texts Communication and Multimodal Literacies	
variety of literary and informational texts heard or read Foundations for Writing and Language Use Produces and expands complete sentences Writing and Research Writes in a variety of forms linked to grade one content and texts Communication and Multimodal Literacies	
Produces and expands complete sentences Writing and Research Writes in a variety of forms linked to grade one content and texts Communication and Multimodal Literacies	
Writing and Research Writes in a variety of forms linked to grade one content and texts Communication and Multimodal Literacies	
Writes in a variety of forms linked to grade one content and texts Communication and Multimodal Literacies	
Communication and Multimodal Literacies	
Develops effective oral communication and collaboration skills	
20 to 6 ps of the control and	
Strengths and Goals:	

Social-Emotional Learning	Q1	Q2	Q3	Q4		Art	Q1	Q2	Q3	Q4
Self-Awareness: Understands one's own emotions, thoughts, and values and how they influence behavior						Creating: Creates works that convey personal meaning, independently uses tools and materials, and consistently participates and contributes				
Self-Management: Manages one's emotions, thoughts, and behaviors effectively in different situations						Presenting: Independently presents a work of art and describes personal reasons for valuing works of art				
Social-Awareness: Understands the perspectives of and empathizes with others						Responding: Independently describes and communicates meanings and feelings about artwork and recognizes the difference between personal opinion and informed				
Relationships: Establishes and maintains healthy and supportive relationships						judgment				
Decision-Making: Makes caring and constructive choices about personal behavior and social interactions						Connecting: Identifies how history, culture, and visual art influence each other; consistently interacts as an artist				
Strengths and Goals:						Strengths and Goals:				
Expedition and Content	Q1	Q2	Q3	Q4		General Music	Q1	Q2	Q3	Q4
Exhibits The Campbell Way (strong character) while participating in expedition experiences, fieldwork, and research						Singing: Develops and demonstrates skills in singing with increasing complexity (to include basic harmony and larger singing ranges)				
Creates high-quality work during expeditions					1	Movement: Responds to music through movement				
Demonstrates and applies grade level content standards in science					\dashv	Playing Instruments: Accurately performs music using a variety of instruments				
Demonstrates and applies grade level content standards in social studies						Music Literacy and Vocabulary: Accurately uses music terminology and demonstrates music reading and notation skills				
Strongthe and Cooler						Contribution: Demonstrates good citizenship and contributes to success in the music classroom				
Strengths and Goals:						CRESTOOM				
						Strengths and Goals:				
						Strengths and Godis.				
						Health and Physical Education	Q1	Q2	Q3	Q4
							Q1	Q2	Q3	Q4
						Health and Physical Education	Q1	Q2	Q3	Q4
						Health and Physical Education Motor Skill Development	Q1	Q2	Q3	Q4
						Health and Physical Education Motor Skill Development Performs locomotor skills (i.e., walking, running, hopping, galloping, and jumping)	Q1	Q2	Q3	Q4

Performs motor skills related to rhythm (i.e. jumping rope, moving to a beat and

Demonstrates an understanding of concepts and principles to be healthy and

Demonstrates appropriate health and wellness practices and behaviors to promote a

rhythmic patterns in personal and general space)

Health and Physical Education Concepts

Healthy Decision Making and Wellness Promotion

safe and healthy environment for oneself and others

physically active

Strengths and Goals:
